WORK EXPERIENCE

Greene County **Springfield, MO**
Senior Programmer Analyst *Sep 2025 - Present*

- Led the design and development of secure, high-performance software applications for internal and public use, managing PII, transactional data, and government-to-public data transfers. Partnered with multiple county departments to streamline workflows and deliver reliable software solutions ahead of tight deadlines.
- Completed certified ADA/WCAG accessibility training and applied WCAG-compliant patterns during the redevelopment and modernization of Greene County web pages to support accessibility and regulatory compliance.

Cottey College **Nevada, MO**
IT Support Specialist *Sep 2024 - Sep 2025*

- Managed daily IT operations and network infrastructure, including Active Directory, virtual machines (VM/VPS), IP address management, Avaya systems, Microsoft 365 Admin Suite, and CrowdStrike. Provided hardware and software support, resolved technical tickets, and maintained both physical and virtual systems to ensure secure, reliable, and high-performance IT operations.

El Dorado Springs RII School District **El Dorado Springs, MO**
IT Support Specialist *Jan 2023 - Sep 2024*

- Configured, deployed, and maintaned workstations, devices, network infrastructure, and cloud enviorments.

LEADERSHIP EXPERIENCE

Greene County **Springfield, MO**
Project Lead *Sep 2025 - Jan 2026*

- Served as Project Lead for the Cedar County Liquor License web application, coordinating a three-person development team to deliver an on-time, internal departmental tool. Led requirements gathering, task delegation, git repository management, and technical decision-making, resulting in a fully adopted solution that met departmental needs. Built using Angular, PHP, and SQL with JetBrains tooling and hosted internally via Linux based servers.

Cottey College **Nevada, MO**
Primary Technical Point of Contact *Jan 2025 - Sep 2025*

- Served as the team expert for the Bepoz POS platform, developing custom workflows, permissions, automation, and panel display logic while supporting system configuration, initial environment integration, troubleshooting, and ongoing operational continuity across multiple sites and locations.
